

AIR CAP POOL LEAGUE NEWS

WHAT AVERAGE DO I USE?

For the first three weeks of the session use the Established Players averages in the center section of your folder. Player's established averages will range from 4-13 based on their lifetime play with this league.

If a player is not listed in the established player list, then they are new to the league and will be setting their average. Follow the new player average guidelines listed in your folder. Basically, you take the score that the new player shoots and divide by 4, rounding up at .5 (A NEW PLAYER CANNOT BE LOWER THAN A 6).
